Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1 and 8 are allowable because the prior art of record fails to disclose or suggest or teach the recited refrigerant is a mixture refrigerant in which a first refrigerant and a second refrigerant are mixed (see claim 1 and 8); when the refrigerant is decompressed and expanded in the nozzle, the first refrigerant has an adiabatic heat drop that is larger than the adiabatic heat drop of the second refrigerant (see claim 1); at an outlet of the nozzle, the first refrigerant has a gas-liquid density difference that is smaller than a gas-liquid density difference of the second refrigerant (see claim 8); in the evaporator, the second refrigerant has an evaporation latent heat larger than an evaporation latent heat of the first refrigerant; and in the gas liquid separator, a gas-phase amount of the first refrigerant is made larger than a gas-phase amount of the second refrigerant, and a liquid-phase amount of the second refrigerant is made larger than a liquid-phase amount of the first refrigerant (see claims 1 and 8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad Ali whose telephone number is 703-308-5032. The examiner can normally be reached on Monday to Friday.
